

Presentation Topics

The Effective Yield

The Baryonic Tully-Fisher relation

Galaxy Downsizing

ULIRGS

The Halo Model

SCUBA galaxies

Origin of the extragalactic background light?

Reionization

The Ly-alpha forest.

Damped Ly-alpha systems (DLAs)

Galaxy Harassment

Nuclear Star Clusters

Star Formation Thresholds

Thick disks

MACHOS

Presentation Topics

Ram-pressure stripping

Star formation quenching

Galaxy-Galaxy Lensing

Origin of the mass-metallicity relation of galaxies

AGN feedback

The origin of the galaxy luminosity function
